

SkyBadge

**Complete, current, and
court-ready training records.**

**Their software stores what your people type.
SkyBadge does the typing.**

If it isn't documented, it didn't happen.

Every agency is legally required to prove officer training is current. After any incident or lawsuit, attorneys request training records immediately.

THE REALITY

THE RECORD

An officer can be perfectly trained, but if the record is missing, incomplete, or scattered, the agency pays for it.

The hidden cost of cheap legacy software

In small departments (10 to 75 officers), one training coordinator carries the burden of retyping paper sign-in sheets, checking dates, and assembling state reports by hand.

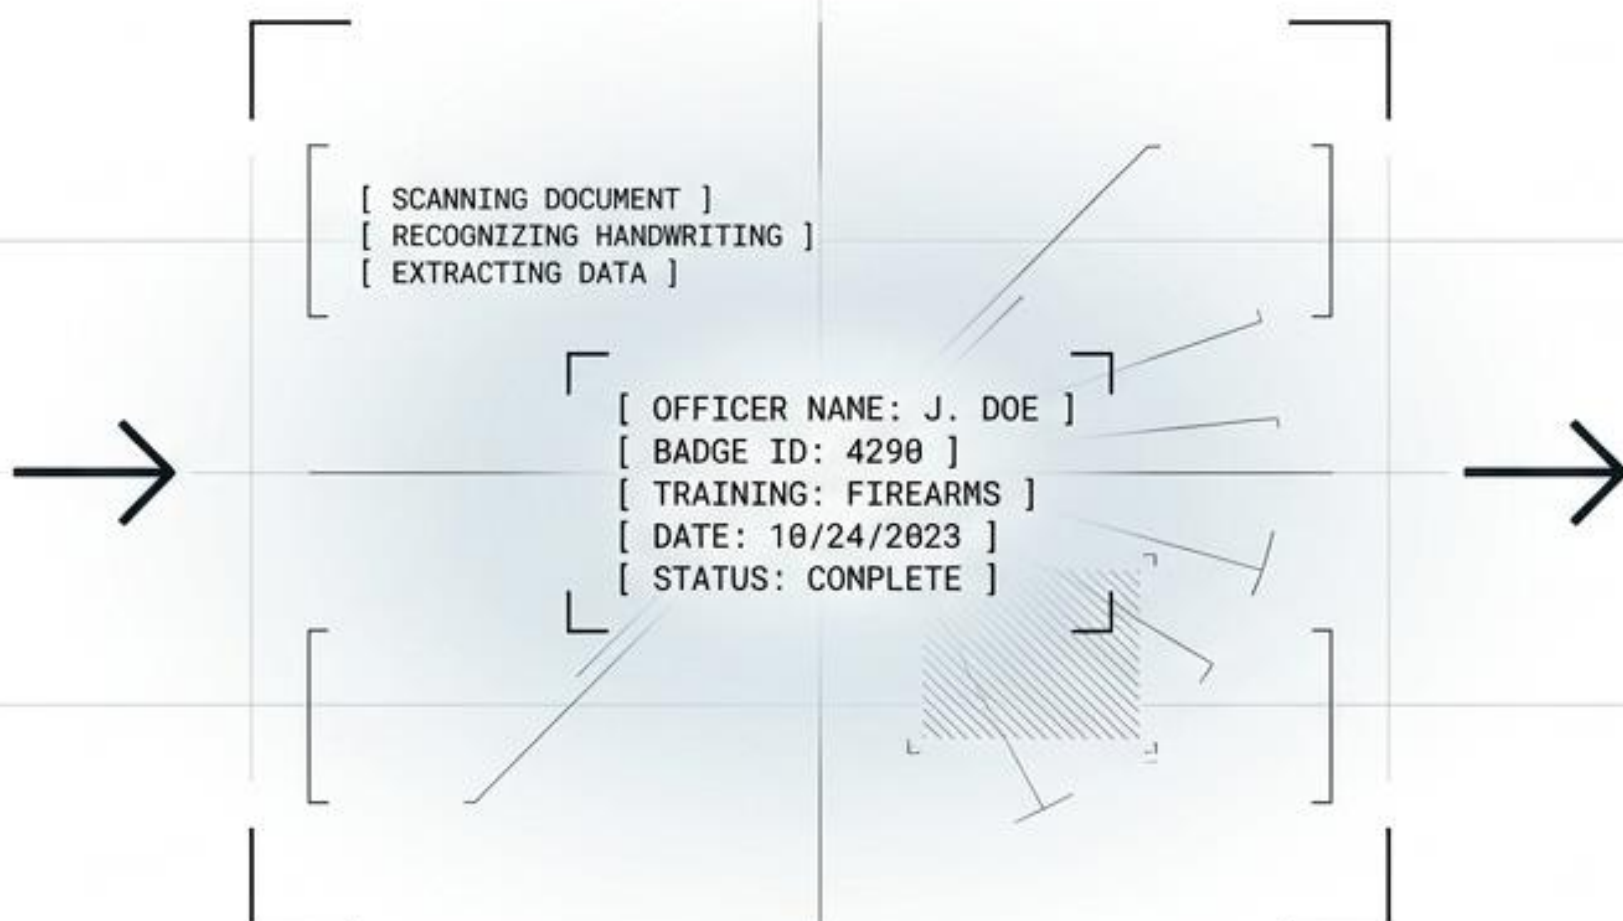

The most expensive part of cheap software is the human typing into it.

Designed to read paper, so your people don't have to.

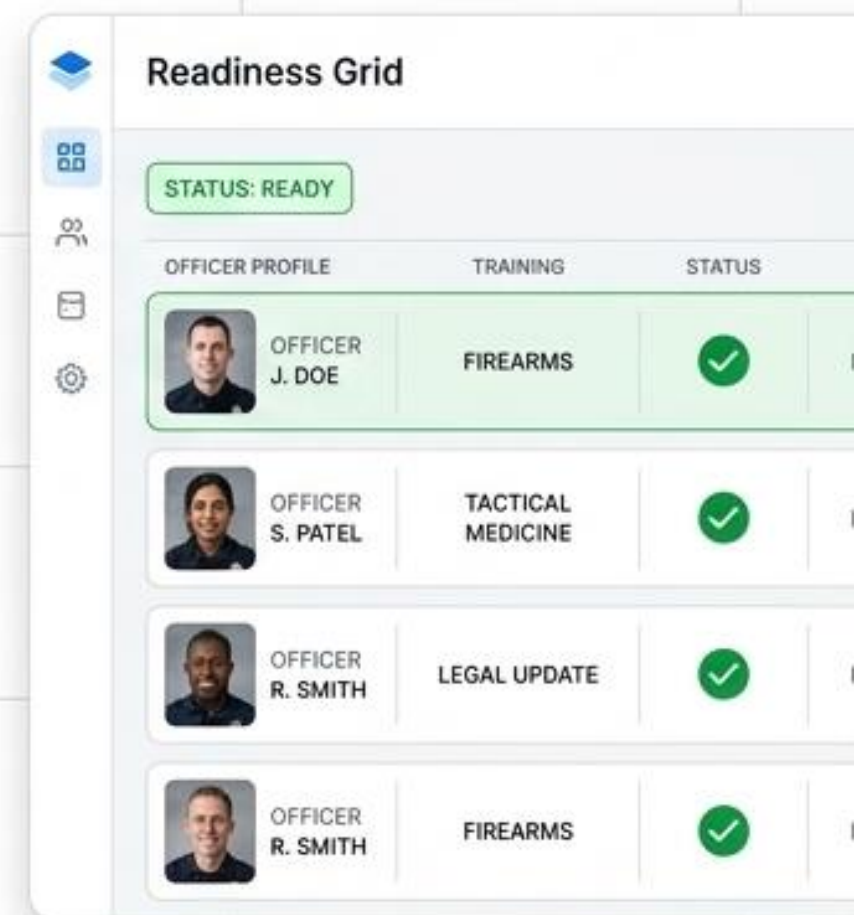

SkyBadge is the first system designed specifically to read paper rosters. It handles the manual labor of data entry so your agency can focus strictly on operational readiness.

PAPER ROSTER

SKYBADGE LENS

DIGITAL COMPLIANCE

From messy sign-in sheet to verified record in 30 seconds.

X-RAY: SMARTPHONE CAPTURE & AI EXTRACTION

Step 1: Snap.

Coordinator photographs the sheet with a phone.

Step 2: Extract.

AI instantly reads names, badge numbers, courses, dates, and hours.

Step 3: Flag.

System flags uncertainties (like smudged handwriting). It never guesses.

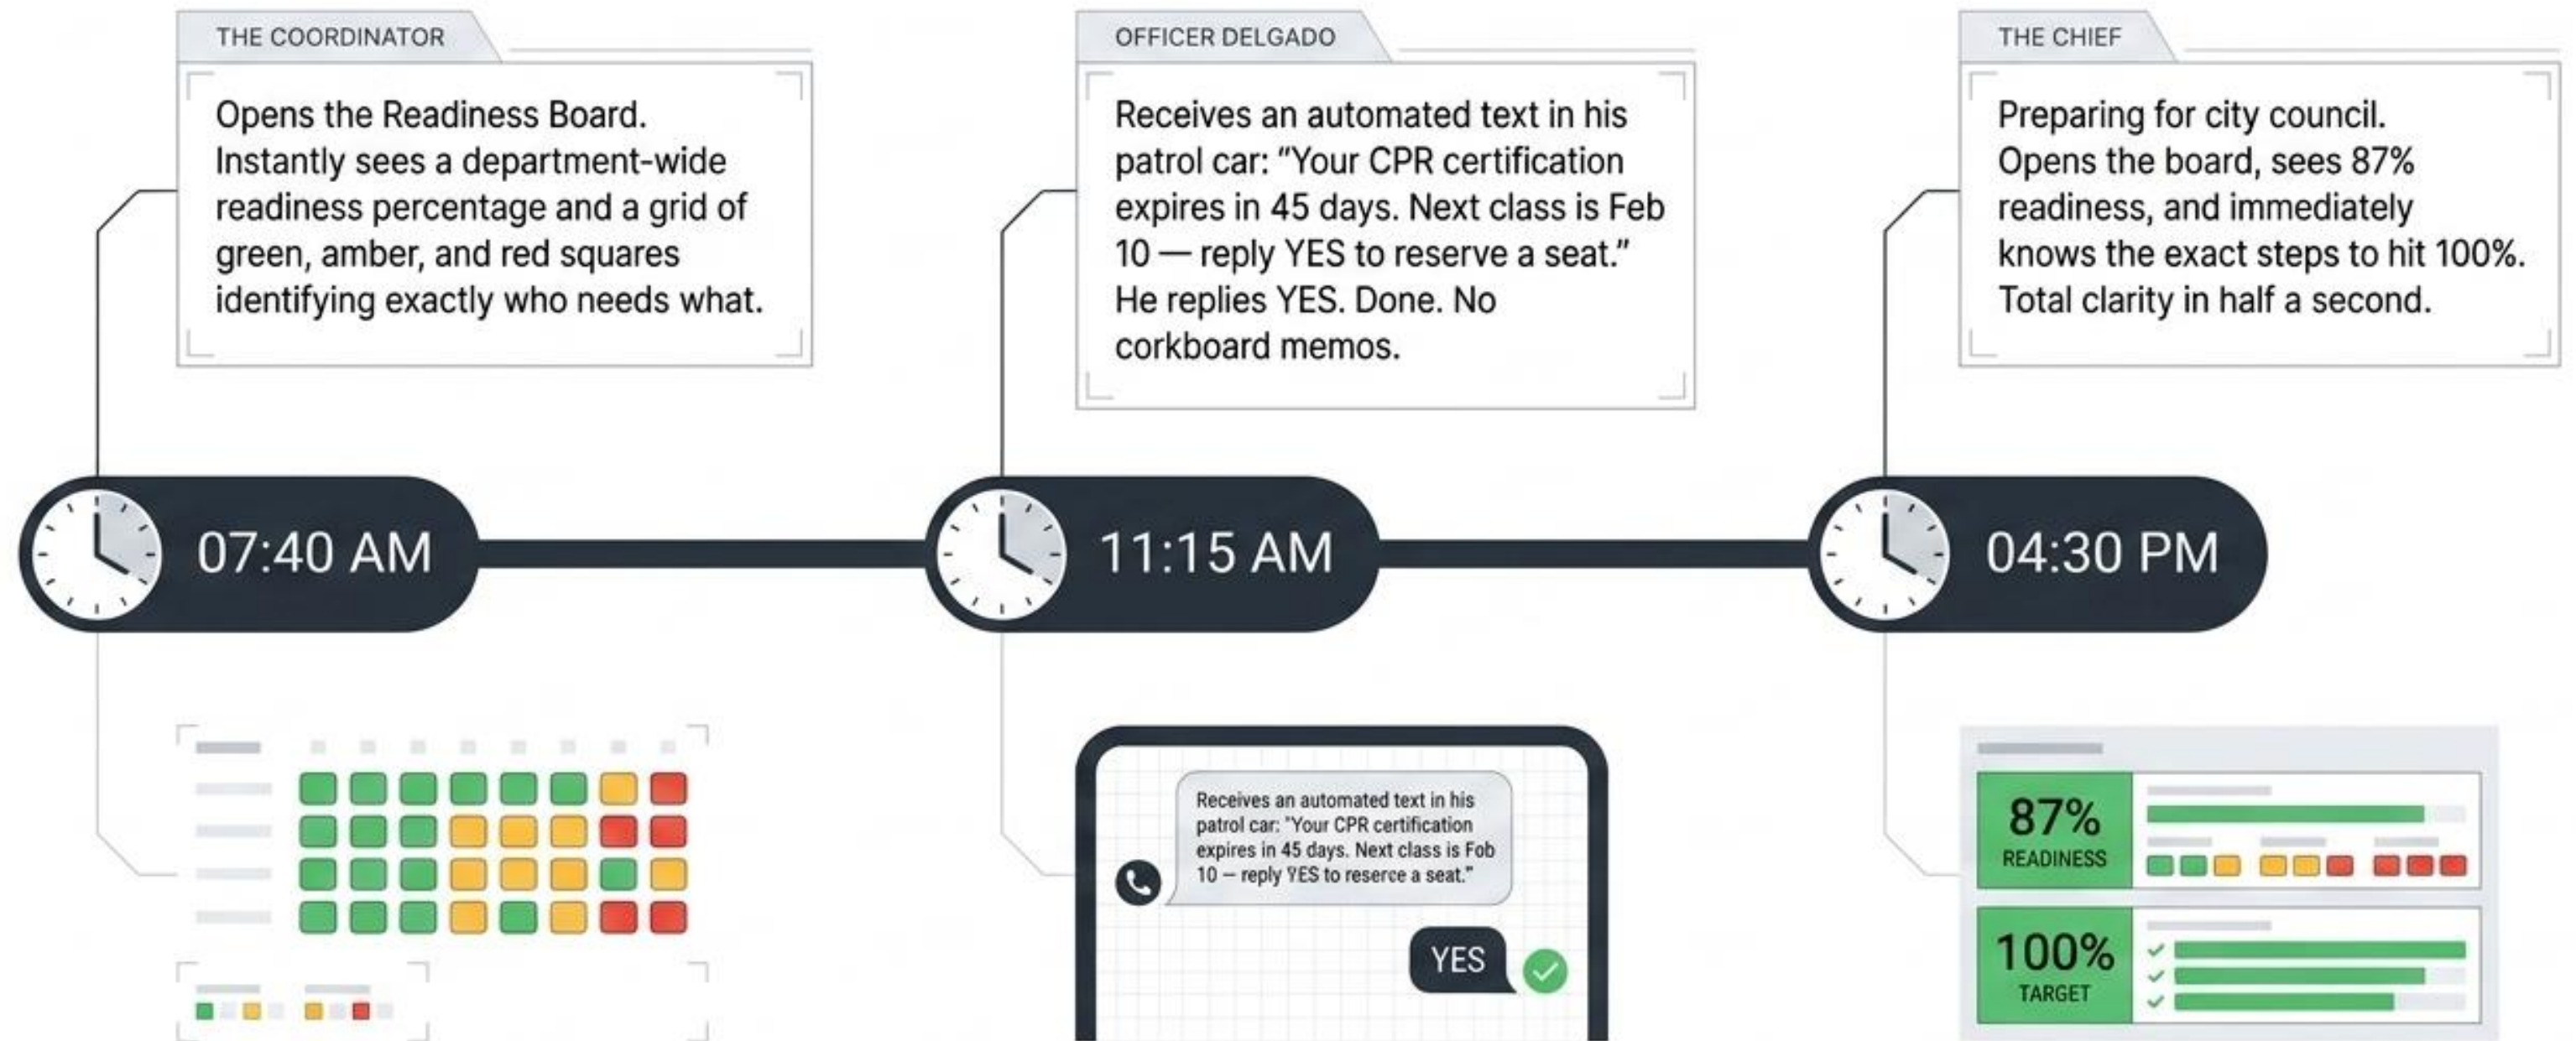

Step 4: Confirm.

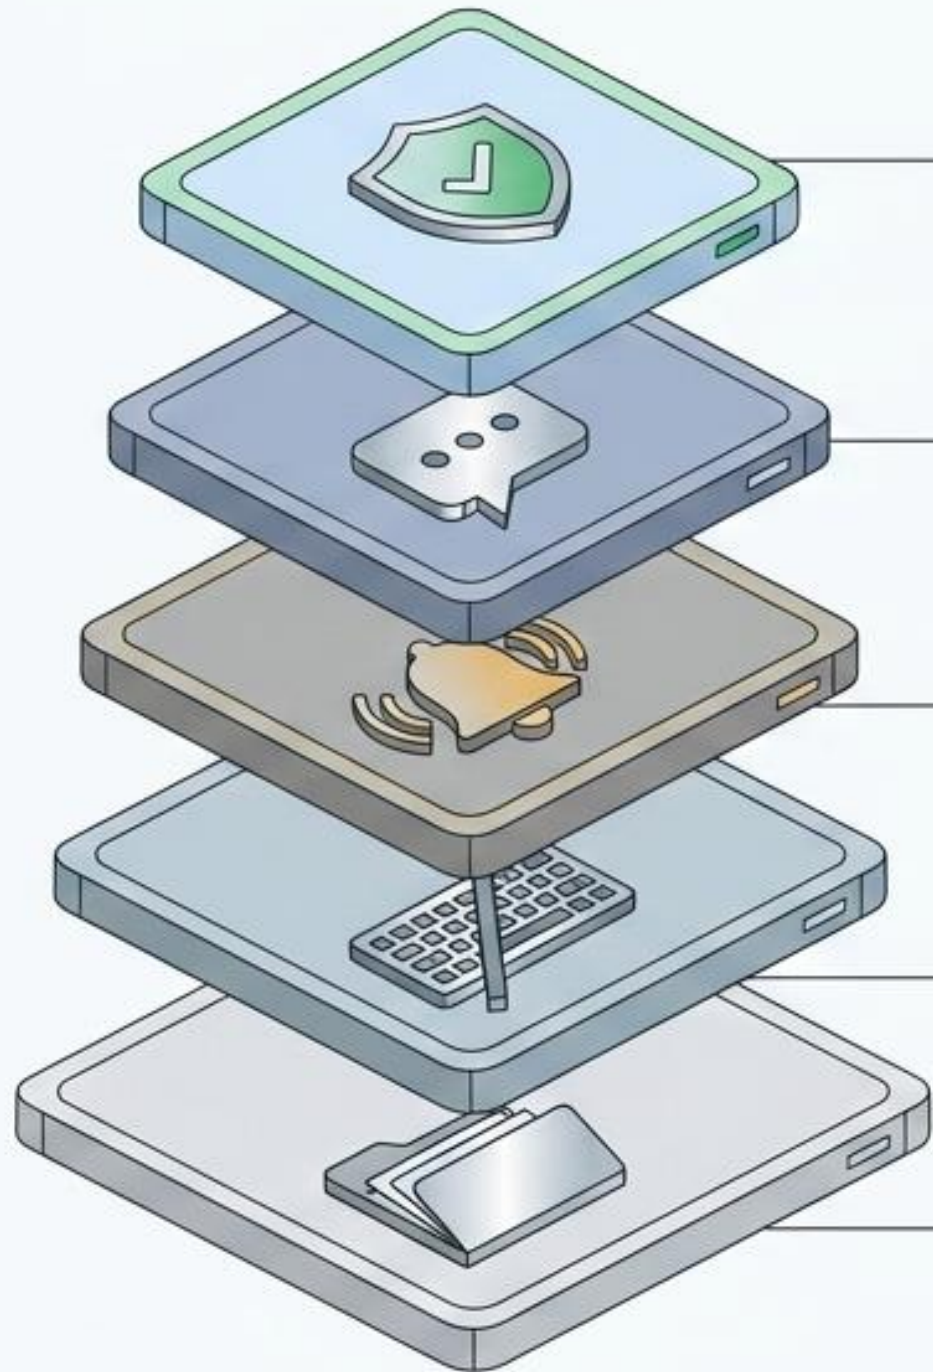

Human verifies the data, taps once, and 8 records are filed instantly.

A Monday morning in SkyBadge.

A unified system for absolute readiness.

✓ **5. Protects the agency:** Immutable audit logs (who, what, when) and permanent retention of original roster photos as evidence.

4. Answers questions: Plain English queries (e.g., "Who hasn't completed de-escalation this cycle?") answered instantly from your data.

⚠ **3. Warns before trouble:** Continuous expirations tracking with automated text and email reminders at 90, 60, and 30 days.

2. Does the typing: Photo-to-record automation after human approval.

1. Keeps the records: A centralized hub for every officer's training and certifications.

The SkyBadge difference.

	Legacy Systems 	SkyBadge 
Data Entry	 Human types every single row	 AI reads paper, human taps confirm
Expirations	 Manual tracking and calendar math	 Automated continuous tracking & SMS/Email alerts
Audit Trail	 Editable spreadsheets with no proof	 Immutable logs permanently linked to original paper photos
Setup Time	 Months of IT integration	 One afternoon and one spreadsheet

The AI does the labor. Your people keep the authority.

The AI's Job

Reads paperwork, monitors dates, and suggests updates. It never decides anything about a person.

The Agency's Job

Confirms every record before it is saved. Retains sole authority over compliance, promotions, assignments, and discipline.

Officer Privacy Note: Enforced at the database level—officers can only see their own records.

Ironclad security and absolute data ownership

Absolute Ownership & The Freedom Guarantee

You own all data, always.
Export everything (records, history, photos) for free, anytime.

If you stop paying, the account remains read-only for 90 days.
We never hold records hostage.

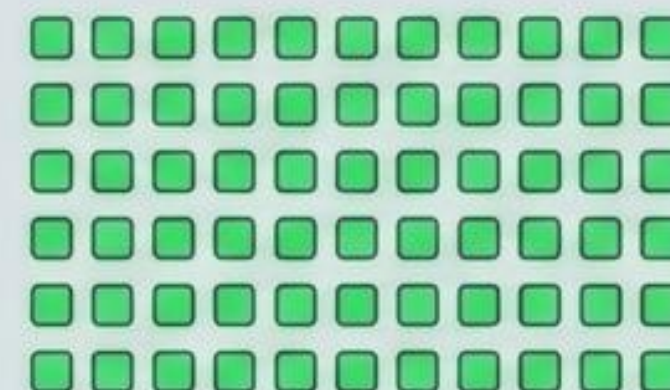

Total Security

Encrypted, US-based servers.
Your agency data is never used to train AI models.

Strict Data Scope

Training records are personnel data.
We do not connect to CJIS.
No criminal-case data, no medical records, no data on minors.

Zero-friction migration in one afternoon.

Step 1: Send us your roster spreadsheet. We configure the system.

Step 2: Snap your first photo. The system is live the same week.

Step 3: Fully Running.

Old Records?

No retyping. Photograph 10 years of binders page-by-page, or upload an old system export. SkyBadge aligns the columns automatically; your team just confirms.

Audit Integrity

Records entered late are permanently, transparently marked as retroactive.

Public, flat, and completely transparent pricing.

Small Agency

< 30 Sworn Officers

\$250 / month flat

Medium Agency

30 - 75 Sworn Officers

\$500 / month flat

What's Included

- ✓ Unlimited logins for everyone (coordinators, chief, officers).
- ✓ Month-to-month contract. Cancel anytime.

What's NOT Included

- ~~- No setup fees~~
- ~~- No per-user fees~~
- ~~- No support fees~~
- ~~- No required training classes~~
- ~~- No exit fees~~

Built for government. Free for founding agencies.

Credibility

SKY AI 

Lenovo

**AI Innovators
Program** 

Built by SKY AI, a Lenovo AI Innovators Program partner deploying secure municipal AI (featured in City of San Gabriel case study). Founder Dr. Waheed "Wade" Ali works directly with early agencies.

The Offer

The Founding Offer

- The first agencies receive 6 months free,
- White-glove setup,
- A direct line to the founder,
- Their founding price locked for 24 months.

The exact same proof, just without the typing.

You already prove your training somehow—with binders, spreadsheets, and a coordinator's lost weekends.

SkyBadge gives you that exact same proof: **proof**: records filed from a photo, expirations watched around the clock, and an immutable audit trail a city attorney will love.

**Claim your 6 free months
on your own data.**
